### Active Travel Month

Here at Barwell CE Academy we are striving to improve activity levels, help the environment and reduce congestion during the month of October. The Active Travel Month campaign has been launched this week in Leicestershire to encourage children and their families to actively travel to school. Please take part if you can, even if this means parking slightly further away from school and walking some of the way or by finding at least one day a week where you can travel to school in an active way. When your child gets into school, they will be able to put a tick against their name each day if they have actively travelled to school by either walking or scooting.

Let's all work together to try and reduce the negative impact air pollution is having on the environment!

We would love to see your active travel photos on Twitter!

We are still having a number of children not bringing in their water bottle each day.

Please ensure your child has a water bottle every day. Thank you.

Also the weather is now turning cooler, can children please bring a coat into school.

Thank you.

This week's challenge from Miss Morris was all about the 'plank'

It was fun watching the children at lunch times using their strength to see who could manage the 'plank' the longest!

A reminder to all families to ensure our children arrive on time, and at their allocated class bubble time. This is to ensure the class bubbles don't mix with any other classes, therefore protecting your children and our staff. Thank you.

We have fantastic wraparound care packages in school. Early birds runs from 8am and Nightingales from after school until 5.45pm. Take a look at our website for full details.

If your child is ill, and presenting with ANY symptoms of the Coronavirus, then please ring 119 to arrange a test.

#### SYMPTOMS:

- A new continuous cough
- A high temperature
- A loss of, or change in, your normal sense of taste or smell. (anosmia)

When any individual in a household presents with any of the above symptoms, the WHOLE household must self isolate, until results are known.

If the result is negative, then your child can come back into school, if the result is positive, please notify school, and self isolate your child for 10 days, and other family member's for 14 days.

Thank you.

Look after each other and everyone stay safe !
