Friday 9th October

Choose how you move in Leicester & Leicestershire

Active Travel Month

Here at Barwell CE Academy we are striving to improve activity levels, help the environment and reduce congestion during the month of October. The Active Travel Month campaign has been launched this week in Leicestershire to encourage children and their families to actively travel to school. Please take part if you can, even if this means parking slightly further away from school and walking some of the way or by finding at least one day a week where you can travel to school in an active way. When your child gets into school, they will be able to put a tick against their name each day if they have actively travelled to school by either walking or scooting.

Let's all work together to try and reduce the negative impact air pollution is having on the environment!

We would love to see your active travel photos on Twitter!

Was lovely to read about one of our pupils taking part in a running challenge at the weekend.

Remember to all keep active, and tweet us with your amazing activities. We all love to read your stories.

Please accept our apologies for the lack of communication over school photographs this week. We initially booked them to bring a bit of normality into our school routines but then due to the hecticness of the 'new normal' completely forgot to advertise them. Please be assured that there will be a second opportunity later in the year, to have school photographs again. Year 6 will also have their usual 'Leavers Pack' photos in the Summer Term too. Apologies again for the poor communications.

We have a challenge for you all this week to work out....

Mrs Bishop has set you a Maths question. See what answer you can come up with! Tweet your answers and tell us how you worked it out!

"A phone and case cost £110 in total. The phone costs £100 more than the case. How much was the phone?"

If your child is ill, and presenting with ANY symptoms of the Coronavirus, then please ring 119 to arrange a test.

SYMPTOMS:

- A new continuous cough
A high temperature
A loss of, or change in, your normal sense of taste or smell. (anosmia)

When any individual in a household presents with any of the above symptoms, the WHOLE household must self isolate, until results are known.

If the result is negative, then your child can come back into school, if the result is positive, please notify school, and self isolate your child for 10 days, and other family member's for 14 days.

Thank you.

We have fantastic wraparound care packages in school. Early birds runs from 8am and Nightingales from after school until 5.45pm. Take a look at our website for full details.

Mrs Ayres makes the most amazing toast on a morning!

Look after each other and everyone stay safe !
